

Due by March 31, 2017

**Notice:** Pursuant to s. NR 216.07(8), Wis. Adm. Code, an owner or operator of a Municipal Separate Storm Sewer System (MS4) is required to submit an annual report to the Department of Natural Resources (DNR) by March 31 of each year to report on activities for the previous calendar year. This form is being provided by the DNR for the user's convenience. Personal information collected will be used for administrative purposes and may be provided to the extent required by Wisconsin's Open Records Law [ss. 19.31-19.39, Wis. Stats.].

This form is for reporting on activities undertaken in calendar year 2016.

**Instructions:** Complete each section of the form. If additional space is needed, attach additional pages. Provide descriptions that explain the program actions taken to comply with the general permit. Complete and submit the annual report by March 31, 2017, to the appropriate address indicated on the last page of this form.

**Part I. Municipal Information**

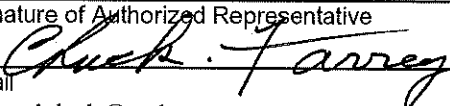

Name of Municipality Town of Vinland		Facility ID No. (FIN) 31080	
Mailing Address 6085 County Road T	City Oshkosh	State WI	ZIP Code 54904
County(s) in which Municipality is located Winnebago	Municipality Type: (select one) <input type="radio"/> County <input type="radio"/> City <input type="radio"/> Village <input checked="" type="radio"/> Town <input type="radio"/> Other (specify)		

**Part II. Municipal Contact Information**

Name of Municipal Contact Person Marilyn Fahrenkrug		Title Town Clerk	
Mailing Address (if different from above)	City	State WI	ZIP Code
Email vinlandclerk@ntd.net	Phone Number (include area code) (920) 235-6953	Fax Number (include area code) (920) 235-6994	
Has the contact person changed in the last year? <input type="radio"/> Yes <input checked="" type="radio"/> No			

**Part III. Certification**

*I hereby certify that I am an authorized representative of the municipality covered under MS4 General Permit No. WI-S050075-2 for which this annual report is being submitted and that the information contained in this document and all attachments were gathered and prepared under my direction or supervision. Based on my inquiry of the person or persons under my direction or supervision involved in the preparation of this document, to the best of my knowledge, the information is true, accurate, and complete. I further certify that the municipality's governing body or delegated representatives have reviewed or been apprised of the contents of this annual report. I understand that Wisconsin law provides severe penalties for submitting false information.*

Authorized Representative Printed Name Chuck Farrey	Authorized Representative Title Town Supervisor		
Signature of Authorized Representative 	Date 3-30-17		
Email vinlandclerk@ntd.net	Phone Number (include area code) (920) 235-6953	Fax Number (include area code) (920) 235-6994	

**Part IV. General Information**

- a. Describe the municipality's efforts to invite the municipal governing body, interest groups, and general public to review and comment on the annual report.
- The Annual Report for the Town's MS4 Stormwater Permit will be presented during the April or May 2017 Town Board meeting. During the public meeting, the Town Board and general public will be provided an opportunity to review and comment on the Annual Report. The meeting agenda will be posted as required by State Statute and placed on the Town's website. After the meeting, the Annual Report will be posted on the Town's website and made available in hard copy format at the Town Hall. The general public will be encouraged to review and comment on the Annual Report. Comments received from the public will be documented and considered as part of the next Annual Report.
- b. Describe how the municipality has kept elected and municipal officials and appropriate staff (such as operators, department heads, and those that interact with the public) informed of the municipal storm water discharge permit and its requirements.
- Town staff and elected officials attend meetings to learn about permit requirements, program development, and changes. Meetings attended include Town Board meetings, Wisconsin Towns Association seminars, and informational sessions with Town Engineers. Elected officials have discussed permit requirements, program development, and changes throughout the year.
- c. Has the municipality prepared or updated its own municipal-wide storm water management plan during the reporting year?
- Yes  No

**Due by March 31, 2017**

**Notice:** Pursuant to s. NR 216.07(8), Wis. Adm. Code, an owner or operator of a Municipal Separate Storm Sewer System (MS4) is required to submit an annual report to the Department of Natural Resources (DNR) by March 31 of each year to report on activities for the previous calendar year. This form is being provided by the DNR for the user's convenience. Personal information collected will be used for administrative purposes and may be provided to the extent required by Wisconsin's Open Records Law [ss. 19.31-19.39, Wis. Stats.].

This form is for reporting on activities undertaken in calendar year 2016.

**Instructions:** Complete each section of the form. If additional space is needed, attach additional pages. Provide descriptions that explain the program actions taken to comply with the general permit. Complete and submit the annual report by March 31, 2017, to the appropriate address indicated on the last page of this form.

Part IV. General Information			
<p>a. Describe the municipality's efforts to invite the municipal governing body, interest groups, and general public to review and comment on the annual report.</p> <p>The Annual Report for the Town's MS4 Stormwater Permit will be presented during the April or May 2017 Town Board meeting. During the public meeting, the Town Board and general public will be provided an opportunity to review and comment on the Annual Report. The meeting agenda will be posted as required by State Statute and placed on the Town's website. After the meeting, the Annual Report will be posted on the Town's website and made available in hard copy format at the Town Hall. The general public will be encouraged to review and comment on the Annual Report. Comments received from the public will be documented and considered as part of the next Annual Report.</p>			
<p>b. Describe how the municipality has kept elected and municipal officials and appropriate staff (such as operators, department heads, and those that interact with the public) informed of the municipal storm water discharge permit and its requirements.</p> <p>Town staff and elected officials attend meetings to learn about permit requirements, program development, and changes. Meetings attended include Town Board meetings, Wisconsin Towns Association seminars, and informational sessions with Town Engineers. Elected officials have discussed permit requirements, program development, and changes throughout the year.</p>			
<p>c. Has the municipality prepared or updated its own municipal-wide storm water management plan during the reporting year?</p> <p style="text-align: right;"><input type="radio"/> Yes   <input checked="" type="radio"/> No</p>			

**Part IV. General Information (continued)**

If yes, provide the title and date of storm water management plan and list any updates:

If yes, has the information been submitted to the Department?

Yes  No

d. During the reporting year, has the municipality entered into a written agreement with another municipality or a contract with another entity to perform one or more of the conditions as provided under section 2.10 of the general permit?

Yes  No

If yes, describe these cooperative efforts:

The "Winnebago County Construction Site Erosion Control and Stormwater Management Ordinance" was adopted by the County Board pursuant to Chapter 59.693, Wis. Stats. As such, due to the statutory basis for this ordinance, no intergovernmental agreement is needed. The Winnebago County Ordinance is applicable to land-disturbing construction activity, new land development, and land redevelopment activity located within the boundaries and jurisdiction of the unincorporated portion of Winnebago County. Winnebago County is responsible for ordinance adoption, implementation, enforcement and education on behalf of the Town.

If yes, has the information been submitted to the Department?

Yes  No

e. If the municipality has an internet website, is there current information about or links provided to the MS4 general permit and/or the municipality's storm water management program?

Yes  No

If yes, provide web address:

www.townofvinland.com

**Part V. Evaluation of Permit Conditions (Section 2 of General Permit)**

**Minimum Control Measures:** For each of the permit conditions listed below, provide an evaluation of program compliance with the general permit.

1. Public Education and Outreach (Section 2.1 of General Permit)

Description of Program(s)	The Town is implementing a public education and outreach program using its website, display racks, newsletters, and public meetings. The Town implements its program in tandem with the County's regional activities. These regional efforts are highlighted in the County's MS4 Annual Report to DNR.
Measurable Goal(s)	The Town tracks the number of website "hits", number of educational materials taken from display racks, number of newsletters distributed to landowners with stormwater educational material, number of public meetings, and number of County activities.
Result(s) Achieved	4,725 "hits" were recorded for the Town's website, five stormwater related educational materials were taken from Town display racks, a newsletter were distributed to about 700 landowners by the Town, and the Town held 23 public meetings. Please refer to the County's MS4 Annual Report for a summary of regional results.
Describe any planned changes to program.	No changes are planned for 2017.

2. Public Involvement and Participation (Section 2.2 of General Permit)

Description of Program(s)	The Town is implementing a public involvement and participation program using public meetings, partnerships, and information from the public. The Town implements its program in tandem with the County's regional activities. These regional efforts are highlighted in the County's MS4 Annual Report to DNR.
Measurable Goal(s)	The Town tracks the number of public meetings, partnerships, and tips / information / complaints submitted by the public.
Result(s) Achieved	The Town held 23 public meetings. The public was provided an opportunity to be educated and involved during the meetings. The Town maintained its partnership with Winnebago County for its construction site erosion control and post-construction stormwater management programs. The public submitted stormwater tips, information, and complaints to the Town and County 6 times.

**Part V. Evaluation of Permit Conditions (continued)**

Describe any planned changes to program.	No changes are planned for 2017.
--	----------------------------------

3. Illicit Discharge Detection and Elimination (Section 2.3 of General Permit)

Description of Program(s)	The Town is implementing an illicit discharge program using ordinances, storm sewer system mapping, and routine activities including ongoing field screening of outfalls, responding to illicit discharges and spills, enforcing the ordinance, responding to information submitted by the public, and educating the public.
Measurable Goal(s)	The Town monitors program implementation by tracking changes to ordinances and municipal storm sewer system maps. In addition, the Town tracks routine implementation activities including outfall field screening, responses to illicit discharges and spills, enforcement actions, information submitted by the public, and public education.
Result(s) Achieved	Field screening was performed for 2 outfalls. Each outfall was characterized as "unlikely" to have an illicit discharge. No hazardous spills were investigated by the Town's Fire Department. No illicit discharge or spill notifications were issued to adjacent municipalities or DNR. No "warning notices", "notices of violation" or enforcement actions were issued. No illicit discharge tips or complaints were received from the public. No brochures were distributed during field screening.
Describe any planned changes to program.	No changes are planned for 2017.

4. Construction Site Pollutant Control (Section 2.4 of General Permit)

Description of Program(s)	The Town is implementing a construction site pollutant control program using ordinances, plan reviews, permitting, site inspections, enforcement actions, responding to information submitted by the public, and education. On behalf of the Town, Winnebago County is a partner and has responsibility for the Town's Construction Site Pollutant Control program.
Measurable Goal(s)	The County monitors program implementation by tracking ordinance changes, plan reviews, permits issued, site inspections, enforcement actions, information submitted by the public, and education.
Result(s) Achieved	9 construction permits issued (9 single family homes, 3 commercial buildings, 1 general permit for Town, 11 land disturbing, 2 filling), 27 sites inspected (25 new sites and 3 ongoing sites from prior years), 40 total site inspections performed, 0 permits posted at construction sites, 6 erosion control tips received from the public, many verbal "warning notices" issued, no "notices of violation" issued, no fines issued, and no education materials distributed by County (see NEWSC Report).
Describe any planned changes to program.	No changes are planned for 2017, except the County plans to update its ordinance. Please refer to the County's MS4 Annual Report.

5. Post-Construction Storm Water Management (Section 2.5 of General Permit)

Description of Program(s)	The Town is implementing a post-construction stormwater management program using ordinances, plan reviews, permitting, site inspections, enforcement actions, responding to information submitted by the public, and education. On behalf of the Town, Winnebago County is a partner and has responsibility for the Town's Post-Construction Stormwater Management program.
Measurable Goal(s)	The County monitors program implementation by tracking ordinance changes, plan reviews, permits issued, site inspections, enforcement actions, information submitted by the public, and education.
Result(s) Achieved	0 post-construction site permits issued, 0 maintenance agreements recorded at County Register of Deeds, 0 sites inspected, 0 permits posted at a site, no tips received from the

**Part V. Evaluation of Permit Conditions (continued)**

	public, no verbal "warning notices" issued, no "notices of violation" issued, no fines issued, and no educational materials distributed by County (see NEWS Report).
Describe any planned changes to program.	No changes are planned for 2017, except the County plans to update its ordinance. Please refer to the County's MS4 Annual Report.

6. Pollution Prevention (Section 2.6 of General Permit)

Description of Program(s)	The Town is implementing a pollution prevention program using grass swales, a wet pond, salt/deicer management, information from the public, and education. The Town implements its program in tandem with County regional activities. These regional efforts are highlighted in the County's MS4 Annual Report to DNR.  The Town owns and operates roads with grass swales, not curb and gutter. The Town does not own or operate any storm sewers or catch basin sumps.
Measurable Goal(s)	The Town monitors program implementation by tracking inspections of the wet pond at the Town Hall, salt / deicer usage, curb-side collections (recycling, garbage), and total suspended solids (TSS) pollutant reductions for its developed urban area.
Result(s) Achieved	The Town inspected the wet pond at the Town Hall at least one time. The Town provided curb-side recycling and garbage collection once every week. The Town provided a 40% TSS reduction for its developed urban area.
Describe any planned changes to program.	No changes are planned for 2017.

• Storm Water Management Facilities (Section 2.6.1 of General Permit)

List any new municipality owned or operated structural storm water management facilities (ponds, biofilters, etc.) added in the last year.  
 None.

• Routine Inspection and Maintenance (Section 2.6.2 – 2.6.4 of General Permit)

Does the municipality have an inspection and maintenance program for installed structural storm water management facilities?  
 Yes  No

Describe the inspection and maintenance program and any activities that have occurred for structural storm water management facilities in 2016. If available, attach any additional information on the inspection and maintenance program.  
 Winnebago County is a partner and is responsible for development and implementation of the Town's Post-Construction Stormwater Management program, including ordinance changes, maintenance agreements, inspections, enforcement activities, and education. Please refer to Winnebago County's MS4 Annual Report for a program description and maintenance activities.

The Town owns and operates one pond at the Town Hall. The Town performed an inspection of the wet pond at least one time last year.

Describe the street sweeping and catch basin cleaning efforts, and the disposal of waste.  
 The Town does not currently own or operate any curb and gutter streets, storm sewers, or catch basin sumps. As such, the Town does not perform street sweeping or catch basin cleaning.

• Winter Road Management Activities (Section 2.6.5 of General Permit)

Provide the name, title, and phone number of the individual(s) with overall responsibility for winter roadway maintenance.  
 Jon Groths, Winnebago County Highway Department, (920) 232-1700  
 The Town contracts with Winnebago County for salt/deicer applications. The County is also a permitted MS4. In addition to the County, the Town also contracts with Treco's for salt applications.

**Part V. Evaluation of Permit Conditions (continued)**

Describe the types of products used for winter road management (e.g. deicing, pre-wetting, salting, etc.).

Brine and salt.

Report the amount of product used by month over the last winter season (approx. November 2015 through April 2016).

Brine for 2016: 15 gallons

Salt for 2016: 17.25 tons (County) plus 52.25 tons (Tresco's) = 69.5 tons

Report the snow disposal locations, if applicable.

The Town does not currently own or operate any snow storage sites.

Describe anti-icing, equipment calibration, and salt reduction strategies.

Please refer to the Winnebago County MS4 Annual Report for a description of anti-icing, equipment calibration, and salt reduction strategies. The County is also a permitted MS4.

Describe any other additional data or information used to evaluate the winter road management activities.

• Leaf Management (Section 2.6.6 of General Permit)

Describe the management of leaves and grass clippings.

The Town does not currently provide curbside leaf, grass clipping and brush collection. Property owners are allowed to compost onsite, burn onsite, or dispose of yard waste at the Winnebago County Landfill.

• Municipal Pollution Prevention (Section 2.6.7 of General Permit)

Provide the location (street address) of each facility (municipal yards and/or maintenance facilities) and contact information (name, title, and phone number) for the individual(s) with overall responsibility for each facility.

Town Hall, 6085 County Rd T, Oshkosh

Town Board, (920) 235-6953

The Town Hall is classified as no exposure, as such no SWPPP or map was prepared.

Map(s) included?  Yes  No - Include a map of each facility, drawn to scale and include the following features:

- Location of major activities and storage areas
- Identification of drainage patterns, potential sources of storm contamination and discharge points.
- Identification of nearby receiving waters or wetlands
- Identification of connections to the permittees's MS4

Describe the housekeeping activities and best management practices installed at municipal yards and/or maintenance facilities to reduce or eliminate storm water contamination.

1. Buildings are locked to prevent unauthorized access.
2. Vehicles and equipment are stored indoors, when feasible.
3. Vehicles and equipment are washed indoors, when feasible. Wash water is discharged to the sanitary holding tank and pumped by a private company. Soil clumps removed from vehicles and equipment prior to washing.
4. Vehicles and equipment are maintained offsite by a private company.
5. Adsorbent cleanup materials are kept onsite at all times for potential spills.
6. Vehicle fuel is purchased and stored offsite from a private gas station.
7. Garbage & other wastes are stored indoors within garbage receptacles.
8. A wet detention pond is located at the Town Hall.

Discuss recommendations for improvements to current storm water management practices at the facility(s) and provide a timeline for installation and/or implementation of these recommendations.

None. The Town has limited facilities, vehicles, equipment, materials and employees.

**Part V. Evaluation of Permit Conditions (continued)**

Provide information on facility inspections. Identify and address potential sources of storm water contamination.

The Town Hall is classified as no exposure, as such no SWPPP or facility inspections were performed. Vehicles, equipment and other potential sources of contamination are stored and maintained inside the building or are taken to a private vendor's facility for maintenance.

Describe the municipal facility(s) employee training on storm water pollution prevention (frequency, duration, objectives, percentage of employees trained this year, etc.).

The Town does not have employees for its municipal operations, just office staff. No Town employees received training about stormwater, except a part-time office staff received training as part of Annual Report preparation.

Describe the spill prevention and response procedures in place at the municipal facility(s).

Adsorbent spill clean up materials are kept onsite, if needed. The Town's volunteer fire fighters are trained on good housekeeping and spill response procedures. The procedures are more fully described in Town's Stormwater Management Plan on file with DNR.

**7. Storm Water Quality Management (Section 2.7 of General Permit)**

Has the municipality completed a pollutant-loading analysis to assess compliance with the 20% TSS reduction developed urban area performance standard?  Yes  No

If yes, provide the following: Model used SLAMM Version 9.2.1 Reduction (%) 40

If no, include a description of any actions the municipality has undertaken during 2016 to help achieve the 20% standard.

**8. Storm Sewer System Map (Section 2.8 of General Permit)**

Describe any changes or updates to the storm sewer system map made in the reporting year. Provide an updated map if any changes occurred during the reporting year.

None

**Part VI. Fiscal Analysis**

a. Provide a fiscal analysis that includes the annual expenditures for 2016, and the budget for 2016 and 2017. A table to document fiscal information is provided on page 9.

b. What financing/fiscal strategy has the municipality implemented to finance the requirements of the general permit?

Storm water utility  General fund  Other \_\_\_\_\_

c. Is adequate revenue generated to implement the storm water management program and meet permit requirements?

Yes  No

Please provide a brief summary of the municipality's financing/fiscal strategy and any additional information that will assist the Department in understanding how storm water management funds are being generated to implement and administer the storm water management program.

The Town obtains funds from its General Fund. Funding for the Construction Site Pollutant Control and Post-Construction Stormwater Management program are generated by permit or user fees submitted to the County. The fees for the Construction Site Pollutant Control and Post-Construction Stormwater Management programs are established by Winnebago County to fund these two programs.

**Part VII. Inspections and Enforcement Actions**

Note: If an ordinance listed below has been submitted to the Department previously and has not been amended since that time, a copy does not need to be submitted again. If the ordinance was previously submitted, indicate such in the space provided.

- a. Has the municipality amended its illicit discharge detection and elimination ordinance in accordance with subsection 2.3.1 of the general permit during the reporting year?  Yes  No  
If yes, attach copy or provide web link to ordinance:
- b. Has the municipality amended its construction site pollutant control ordinance in accordance with subsection 2.4.1 of the general permit during the reporting year?  Yes  No  
If yes, attach copy or provide web link to ordinance:
- c. Has the municipality amended its post-construction storm water management ordinance in accordance with subsection 2.5.1 of the general permit during the reporting year?  Yes  No  
If yes, attach copy or provide web link to ordinance:
- d. Has the municipality adopted any other ordinances it has deemed necessary to implement a program under the general permit (e.g., pet waste ordinance, leaf management/yard waste ordinance, parking restrictions for street cleaning, etc.) during the reporting year?  Yes  No  
If yes, attach copy or provide web link to ordinance:
- e. Provide a summary of available information on the number and nature of inspections and enforcement actions conducted during the reporting period to ensure compliance with the ordinances described in a. to d. above.  
Please refer to illicit discharge, construction site, and post-construction stormwater management sections of this report for a summary. It is the Town's understanding that Winnebago County is planning to update its Construction Site Erosion Control and Post-Construction Stormwater Management ordinances during 2017. Please refer to the Winnebago County MS4 Annual Report for additional information.

**Part VIII. Water Quality Concerns**

- a. Does any part of the MS4 discharge to an outstanding resource water (ORW) or exceptional resource water (ERW) listed under s. NR 102.10 or 102.11, Wis. Adm. Code? (A list of ORWs and ERWs may be found on the Department's Internet site at: <http://dnr.wi.gov/topic/surfacewater/orwerw.html>)  Yes  No  
If yes, list:
- b. Does any part of the MS4 discharge to an impaired waterbody listed in accordance with section 303(d)(1) of the federal Clean Water Act, 33 USC § 1313(d)(1)(C)? (A list of the most current Wisconsin impaired waterbodies may be found on the Department's Internet site at: <http://dnr.wi.gov/water/impairedsearch.aspx?status=303d>)  Yes  No  
If yes, complete the following:
- Impaired waterbody to which the MS4 discharges:  
Lake Winnebago
  - Description of actions municipality has taken to comply with section 1.5.2 of the MS4 general permit for discharges of pollutant(s) of concern to an impaired waterbody:  
The Town developed and continues to implement a public education, public involvement, illicit discharge, construction site pollutant control, post-construction site stormwater management, pollution prevention, and stormwater quality management program to reduce the discharge of excess total suspended solids and total phosphorus to Lake Winnebago.
- c. Identify any known water quality improvements in the receiving water to which the MS4 discharges during the reporting period.  
None
- d. Identify any known water quality degradation in the receiving water to which the MS4 discharges during the reporting period and what actions are being taken to improve the water quality in the receiving water.  
None
- e. Does any part of the MS4 discharge to an approved Total Maximum Daily Load (TMDL) area (Section 1.5.4 of the general permit)?  Yes  No

**Part VIII. Water Quality Concerns (continued)**

If yes, fill out below. If no, disregard.

*Required reporting for TMDLs approved prior to the effective date of the permit for 2016:*

Name of TMDL: \_\_\_\_\_ Date TMDL approved? \_\_\_\_\_

Map(s) included?  Yes  No - Submit a storm sewer system map (may be the same map submitted under section V.6. of this form), which includes the TMDL reachshed boundaries and associated acreage within the municipality, and the MS4 drainage boundaries and associated acreage within the municipality.

**Part IX. Proposed Program Changes**

Describe any proposed changes to the storm water management program being considered for 2017 and the schedule for implementing those changes. Proposed program changes must be consistent with the requirements of the general permit.

It is the Town's understanding that Winnebago County is planning to update its Construction Site Erosion Control and Post-Construction Stormwater Management ordinances during 2017. Please refer to the Winnebago County MS4 Annual Report for additional information.

**Part X. Other**

Any other municipal storm water program information for inclusion in the Annual Report regarding their storm water program may be added here or attached.

Fiscal Analysis Table. Complete the fiscal analysis table provided below.

Program Element	Annual Expenditure 2016	Budget		Source of Funds
		2016	2017	
Public Education and Outreach	\$800	\$800	\$800	General Fund
Public Involvement and Participation	\$100	\$100	\$100	General Fund
Illicit Discharge Detection and Elimination	\$50	\$50	\$50	General Fund
Construction Site Pollutant Control				Winnebago County collects user fees and administers each aspect of this program for the Town
Post-Construction Storm Water Management				Winnebago County collects user fees and administers each aspect of this program for the Town
Pollution Prevention				General Fund (Town does not have employees, equipment or facilities that are related to pollution prevention)
Storm Water Quality Management (including pollutant-loading analysis)				General Fund
Storm Sewer System Map				General Fund
Other:	\$500	\$500	\$500	General Fund
